Inspiring Individual Excellence

## LEARNING TECHNOLOGY ACCEPTABLE USE POLICY

Our values that guide everyday school life – Respect, Engagement, Achievement and Lifelong Learning – also guide how Learning Technology, including the Internet, is used. Students whose activities breach these values will be subject to a range of discipline measures decided upon by the school; such as, but not exclusive to, loss of access to the range of Learning Technology at the school.

### Student

I acknowledge that I must be responsible in my use of Learning Technology.

### I will...

- obey the law of copyright
- acknowledge any information I take from the Internet or other sources
- use the Internet or other sources of information to assist me with my study.

### I know that I must not...

- disclose my password to others, or use anybody else's password
- disclose my address or that of anybody else
- use the internet for commercial purposes
- use the technology for any purpose that may cause psychological harm, be perceived as offensive to others, as a means of cyberbullying or that in anyway brings the school into disrepute
- participate in chat channel activities, games, FTP, news, newsgroups, torrenting or warez services
- deliberately seek out pornographic, racist, offensive or violent material and that, should I come across it accidentally, I will quietly and immediately leave that site and inform my teacher.
- send emails that contain inappropriate/offensive material or language
- use my device in any way that may infringe the school's assessment policy in terms of plagiarism and academic integrity
- attempt to circumvent the network or internet security
- knowingly introduce a virus onto the school network

**At all times, I will choose to act under the values of the school of Respect, Engagement, Achievement and Lifelong Learning.**

### Parent/Caregiver

I have read the school guidelines for the use of Learning Technology and am aware of the positive contribution it can make to my child's academic progress. I am also aware that there is a risk that my child may come into contact with material that I consider not acceptable.

My child has read the guideline and Student Agreement above and has signed accordingly.

I acknowledge that ultimate responsibility for the correct use of the Learning Technology rests with my child, and give permission for my child to access Learning Technology while at school.
